Date: Thursday, July 05, 2018 2:47:27 PM

Dear Karina, Graciela, Ricardo,

I hope you had a terrific 4th of July. I'm following up in behalf of Daniel as he is no longer with Knightscope. I would like to arrange a call next week to discuss the next steps. If you prefer to meet, I am based in the Los Angeles area and would be glad to. Please let me know your preference.

Kind regards,

Subject: Deployment Call
Date: Friday, April 12, 2019 9:33:12 PM

Good Evening Everyone!

I hope it was a great week for you all. I wanted to see if we can schedule a call for next week to discuss the proposed patrol routes as well as the robot branding.

We would like to button all of this up so that we can set the deployment schedule and have all the needed items finalized.

Please let me know what works best for everyone's schedule and I will set it up.

Thank you all and have a great weekend,

Chris

Thanks for jumping in Jason. "Extremely busy" – pretty much sums it up for me. Some have even come to believe I have a stunt double or an identical twin!!!

Back to business; Tom, Jason has provided most of the information I think you were seeking. I'll just add a few more details.

- 1). City Hall does have an elevator that will accommodate moving RoboCop to the 2nd floor.

- 2). 4 pm for RoboCop to be in place inside Council Chambers is actually a bit early. I think 5 pm'ish would be a better time.
- 3). The presentation of RoboCop will be at the top of Council Agenda, so it will take place shortly after 6 pm.
- 4). On the Council Agenda; after Presentations there is Public Comment, then there is Closed Session, which generally comes up at around 7 pm. During Closed Session, we would like to move RoboCop to the hallway just outside of Council Chambers, to a pre-designated location, where it will remain until your team is ready to return it to Salt Lake Park.
- 5). In addition to Daniel, I am also available as your point of contact. [REDACTED] and like me, it never sleeps.

Thank you for your help and attention and let me know if you need any other details.

Chief,

I know you're extremely busy so I'll provide Tom with some information below to start, but please add or edit as needed. If the meeting is on the 2nd floor at City Hall, is an elevator available? Also, if a Purchase Order number is required by the City for the invoicing, can you please have someone provide us with one?

Delivery Date: 6-18-19

Meeting Time: 6:00 PM, but please have the robot delivered by 4:00 PM.

Location: City Council Chambers (2nd Floor) at City Hall, 6550 Miles Avenue, Huntington Park, CA 90255

Point of Contact: Daniel Hernandez, [REDACTED], DHernandez@hpca.gov

Return Date: 6-19-19

Time: Anytime in the morning

Subject: HP RoboCop Update
Date: Thursday, May 23, 2019 4:39:18 PM

All —

As some of you might already know, the K-5 did not cooperate Saturday, therefore, did not make a full appearance as planned. The Knightscope team serviced the machine and completed the work yesterday. It is once again operational. With the K-5 back, the Knightscope team will continue to set-up, test, and optimize the patrol route. This effort will take a couple more weeks and will hopefully be complete early June.

Ricardo,

Good evening, I received your message today about moving forward. That is great news and we are thrilled about the opportunity to work with you. I wanted to provide some additional information to you, including our Machine-as-a-Service (MaaS) Agreement detailing the terms and proposed price for you and your team. I also provided a nice discount off of our full package that I think you will like.

It will take up to 60 days to deploy the machine to your location after you sign and return the agreement. Here are some recent video hyperlinks that you may find interesting. Stop by the booth tomorrow if you have any questions.

Subject: Knightscope Call
Date: Wednesday, February 13, 2019 6:55:14 AM

Good morning Rick,

Thank you again for helping us get started on deploying the robot. As we discussed on our call yesterday, below are a few items we'll need your team's help with.

Map – Outline the patrol routes and 2 charge pad locations with 110V power.

Wrap – We need either an Illustrator (.ai), .eps or a vector based .pdf of the logo you'd like to use with the city seal.

Robot Name – This is optional, but we can include the robots official name on the wrap if the city wants to.

Deployment Contact – Please provide the contact info for Daniel Hernandez.

Knightscope Software – Please provide the contact info for the person at the PD that will be using our software and handling alerts from the robot.

Please let me know if you have any questions.

Thanks again,

Subject: Knightscope Deployment Update - Power Questions
Date: Wednesday, May 08, 2019 10:06:13 AM

Hi Rick,

I hope all is well. The team is preparing to deploy the robot next week and had a few more questions regarding power.

Can you please confirm where the power is located on the property? A picture of a map showing the location or clear description of where should suffice.

What amperage is the circuit and is it a dedicated outlet? Has it been tested?

Lastly, will there be a secure lock box on the outlet to prevent people from unplugging the charging system?

Thanks,
Tom

Ricardo,

Thank you for letting me know, I will get this buttoned up and sent to our team asap.

Would you have time available this week for a deployment call with our team?

We are set to deploy your robot the week of May 13th but, we need to finalize a few things this week to meet that timeline. If we cannot get these last few items confirmed before the end of this week, it is going to delay the deployment of your robot.

Let me know what you have available for a 30min call and I will make it happen.

Thanks Ricardo,

Chris

Good morning Rick,

Thank you again for helping us get started on deploying the robot. As we discussed on our call yesterday, below are a few items we'll need your team's help with.

Map – Outline the patrol routes and 2 charge pad locations with 110V power.

Wrap – We need either an Illustrator (.ai), .eps or a vector based .pdf of the logo you'd like to use with the city seal.

Robot Name – This is optional, but we can include the robots official name on the wrap if the city wants to.

Deployment Contact – Please provide the contact info for Daniel Hernandez.

Knightscope Software – Please provide the contact info for the person at the PD that will be using our software and handling alerts from the robot.

Please let me know if you have any questions.

Robot Name – This is optional, but we can include the robots official name on the wrap if the city wants to.

Deployment Contact – Please provide the contact info for Daniel Hernandez.

Knightscope Software – Please provide the contact info for the person at the PD that will be using our software and handling alerts from the robot.

Please let me know if you have any questions.

Thanks again,

The PD contact is Sergeant Joe Settles - jsettles@hppolice.org . I've copied him on this reply to loop him in.

Thanks -

Hi Jason —

Have answers to some of your questions:

- * Robot name — going with “HP Robo Cop”
- * Wrap — police uniform theme with HPPD’s badge
- * Deployment contact — Daniel is cc’d here
- * Knightscope software — Ive also included our Chief. He can assist in identifying that contact.

Ill sit down with Daniel to go over some of the proposed routes and mapping, but in the meantime, it is ok to begin coordinating with him.

Let me know if you have any other questions.

Thank you.

Ricardo,

I wanted to reach out to you and set up a call in regards to your upcoming Knightscope K5 Deployment. Do you have preferred availability this week or next week that we could connect and discuss?

Also, we would like to get you a mocked up K5 design with your preferred logo on the robot. Is there someone that you can connect me with in order to obtain a copy of the logo?

Thank You Ricardo and we look forward to supporting you.

Chris

Following are dates available...this week is short, since you're out of town starting Wednesday.

Tomorrow, Tuesday, 3/19 at 11:00am

Monday, 3/25 at 1pm

Wednesday, 3/27 at 9am or 3:30pm

Thursday, 3/28 at 1pm or 3pm

Let me know what works best.

Thank you,

-Susan

Please see attached. Looking for a combination of C and E. And for design A, change the police logo to the city sea, and color that panel in "city seal" blue.

Let me know if any of that made no sense.

Good Afternoon Everyone,

We have completed the wrap designs and I wanted to get everyone's input. We have (5) designs available so let me know which one you prefer and we will get it done.

I would caution not to take too long as the wrap build and install could push the deployment time line back if it takes too long.

Thanks Everyone and we are excited to get your robot built.
